Gender: Male ◇ Portfolio ◇ LinkedIn ◇ GitHub

SUMMARY

Aspiring AI Engineer and 3rd-year CS student with a focus on **Artificial Intelligence and Machine Learning**. Experienced in transforming complex datasets into actionable insights and developing **GenAI-powered applications**. Skilled in Python, and Machine Learning frameworks, with a passion for building autonomous agents and scalable AI systems. Eager to contribute to innovative AI research and engineering projects.

EXPERIENCE

Agentic AI Intern

Feb '26 — Present

Innomatics Research Labs

India (Remote)

Targeting the development of autonomous AI agents using **CrewAI and LangGraph** to automate complex reasoning workflows. Aiming to design and deploy **RAG pipelines** and custom tool-integrations, focused on transforming static LLMs into dynamic, data-aware systems for real-world automation tasks.

Data Analyst

Jan '26 — Present

Apex Planet Software Pvt Ltd

Remote

Data Analytics Intern | ApexPlanet Software Pvt Ltd Executed an end-to-end analytics project by cleaning and transforming raw financial data using Python and SQL to uncover risk factors. Designed and deployed an interactive Power BI dashboard, transforming complex datasets into clear, actionable insights for credit risk assessment.

SKILLS

Top Skills Artificial Intelligence (AI), machine learning, Classification, Exploratory Data Analysis, Data Analysis, Regression, Microsoft Excel, AI Analytics, Tableau, ChatGPT, Generative AI

Interests participating in Hackthons, Traveling, Strategic Gaming

Languages Python

PROJECTS

Gen AI Health Assistant, HCL Guvi Hackthon [Link](#)

Sep '25 — Nov '25

- GenAI-powered medical assistant for rural India, aiding diagnosis via symptoms, history, and vitals. Provides differential diagnoses, treatment protocols, specialist referrals. Supports Hindi, Tamil, Telugu, Bengali, offers drug alerts, dosage guidance, offline use, and patient privacy compliance.

Delinquency Prediction, ApexPlanet Software Pvt Ltd [Link](#)

Dec '25 — Present

- Financial institutions face significant losses due to loan defaults. This project focuses on building a robust Data Analytics & Machine Learning Pipeline to predict customer delinquency (failure to pay). The goal was to transform raw, inconsistent financial data into actionable insights and high-quality features for predictive modeling.

AWARDS

Top Performer- HCL & GUVI Hackthon

Sep '25

HCL Technologies & GUVI

Recognized for technical excellence in building [Gen AI Health Assistant]. Awarded a prize (Premium Headset) for demonstrating strong problem-solving skills in Python/Gen AI & AI Tools.

EDUCATION

B.TECH in Artificial Intelligence & Machine Learning(AIML), Sri Venkateswara College of Engineering & Technology (SVCET) Chittoor. (GPA: 7.71)

Aug '23 — Present
Chittoor.

Intermediate in M.P.C, Sri Siddhartha Junior College , Madanapalli. (GPA: 82.6%)

Jul '21 — May '23
Madanapalli.
